Activating a Government Support Contractor (GSC)

How to activate an EDA Government Support Contractor (GSC). A user's EDA POC or an EDA Executive must first add the GSC's Contract Expiration Date:

- 1. From the EDA Administration Menu select Account Information/Activation
- 2. Input GSC search criteria
- 3. Select Search
- 4. From the Actions column select Edit Contract icon
- 5. Enter the New Contract Expiration Date
- From the Action Column select Approve from the drop down menu
- 7. Click Submit
- 8. Once the Contract Expiration Date is entered then either an EDA Admin, EDA POC, or an EDA Executive can activate the GSC

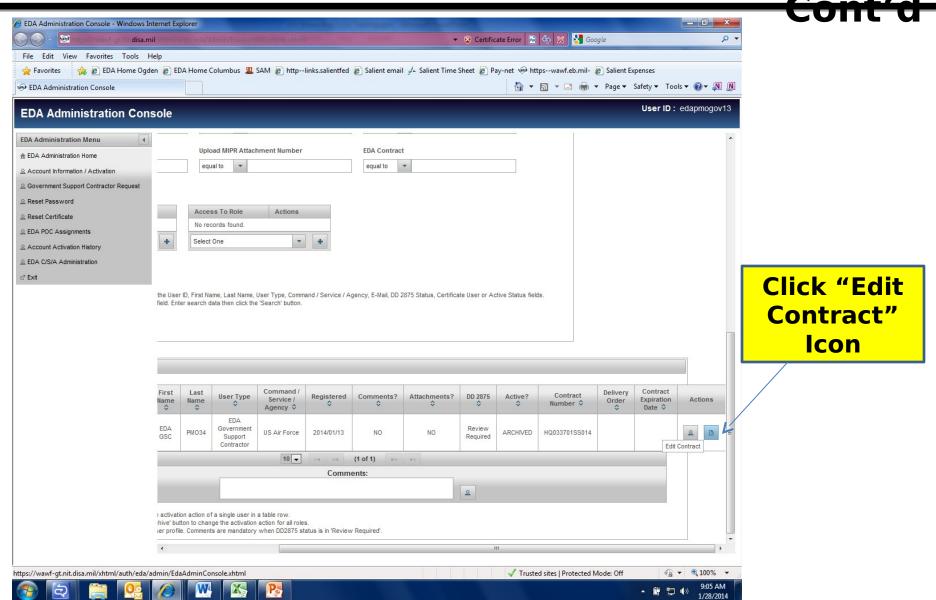

Error: Comments are mandatory when activating roles where DD 2875 form status is set to **Review Required.**

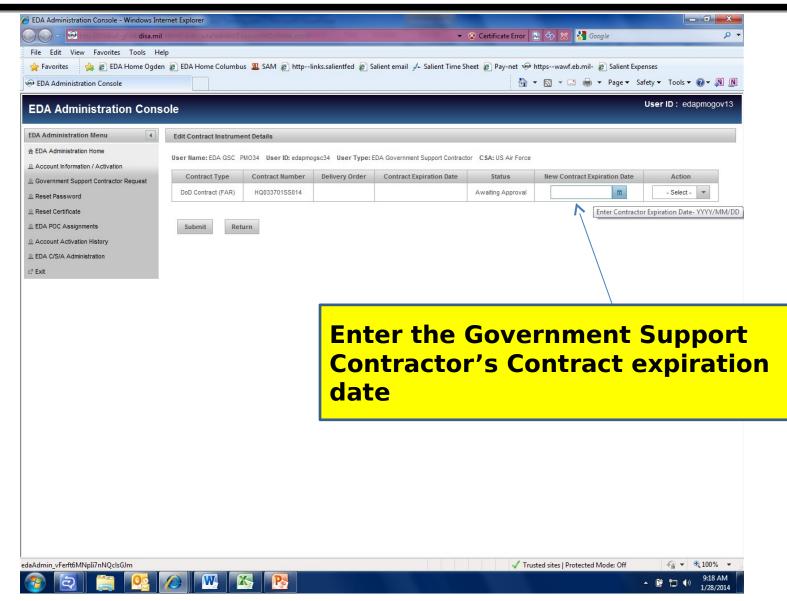

Received error as you have to enter a Contract **Expiration Date** and account for the **DD2875** before you can activate

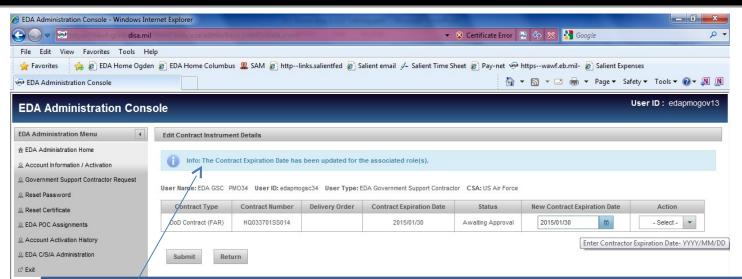

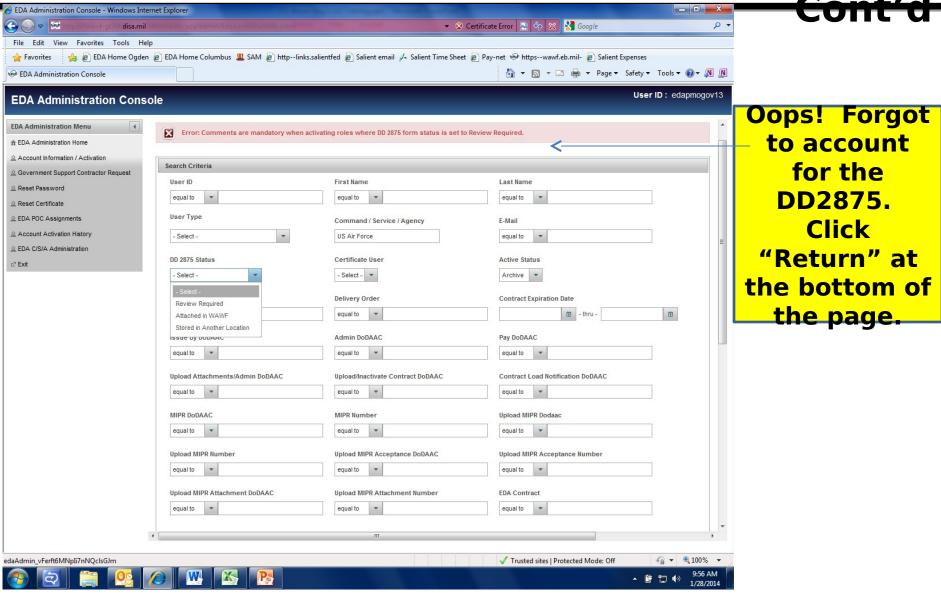

Once the new expiration date has been entered and "SUBMIT" clicked, the message, "Info: The Contract Expiration Date has been updated for the associated role(s)." will show indicating the expiration date has been updated successfully. Click "RETURN" to finish activation.

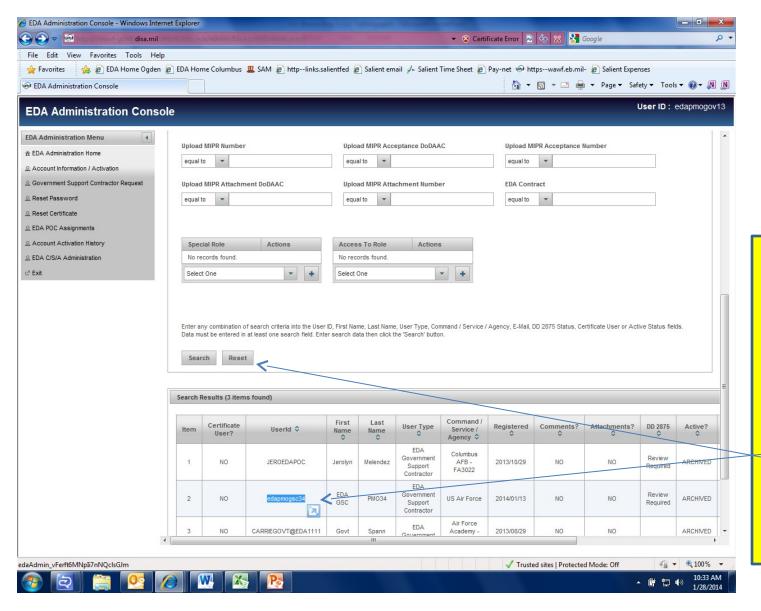

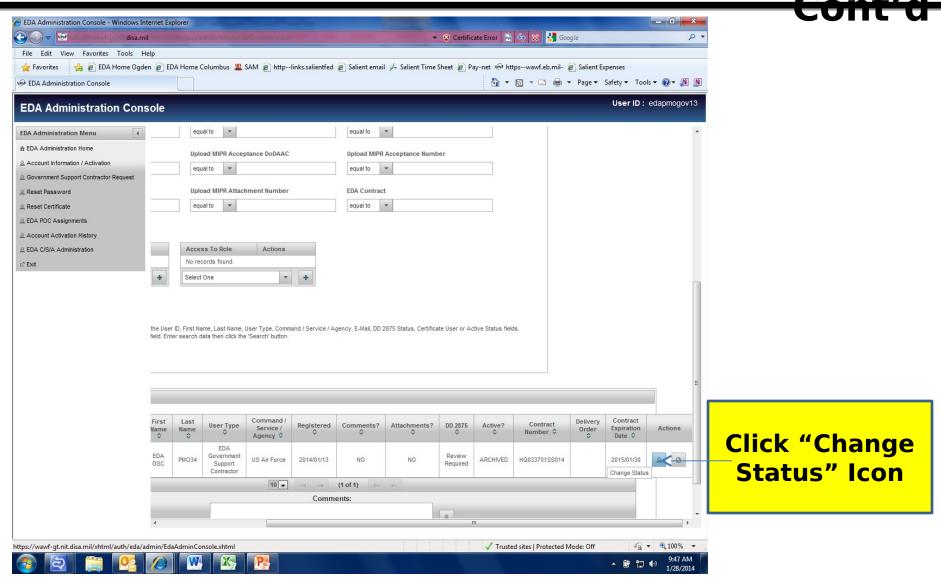

Cont'd

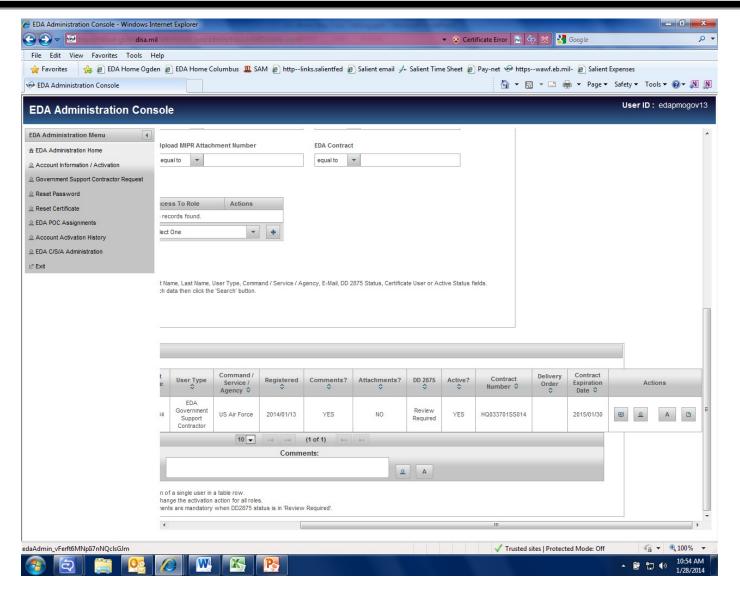

We want to bring up the user's registration by itself. Copy the UserID and then click Reset

SSO EDA Administration Console

EDA Administration Monu EDA Administration Home Account Information / Activation Government Support Contractor Request Reset Password Reset Certificate EDA Administration Home Welcome to the EDA Administration Console. Select an option from the EDA Administration Menu on the left side of the page to begin. EDA POC Assignments Account Activation History EXIT

A new window of EDA Administration Console is displayed.

When a user with EDA POC privileges logs in to the EDA Administration Console, this is the menu that will be displayed.

User Administration

Edit ICON - Edit User Profile – Every aspect of a users account can be viewed and changed from the users profile (User Information, Command/Service/Agency (CSA), Supervisor, Supervisor Information, Access To, Special Roles, User Comments, Comments, Attachments, Review DD2875 Form)

- The DD2875 section add an attachment
- Comments are required when 'Stored in Another Location' or when 'Review Required' is selected. Location must be specified in the Comments when status is 'Stored in Another Location'.

Change Status Icon - **Comments will be required** when activating any user. If the Change Status icon located next to the Comments box on the search results screen is clicked then after comments are entered all users in the list will be either activated or inactivated. To activate user individually, enter comments and then click the Change Status icon located on the user's line.

Send to Archive Icon –If the Send to Archive icon located next to the Comments box on the search results screen is clicked then all users in the list will be archived. To archive users individually click the Send to Archive icon located on the user's line.

NOTE: The DELETE option currently available in EDA production today has been replaced by the ARCHIVE process in SSO.

S

Suspend Registration ICON - All pending registrations show as INACTIVE as does Active users that have been Inactivated. The SUSPEND Icon is supposed to show on new registrations only, but is showing up on ALL Inactivated users (inactivated "active" users as well as pending users). This is a known issue that will be corrected.

To suspend a users pending registration click the Suspend Registration Icon on the user's line.

Edit Contract Expiration Date - Exec/POC must contract expiration date for the Inter the Government Support Contractor registration.

EDA POC <u>Assignments</u>

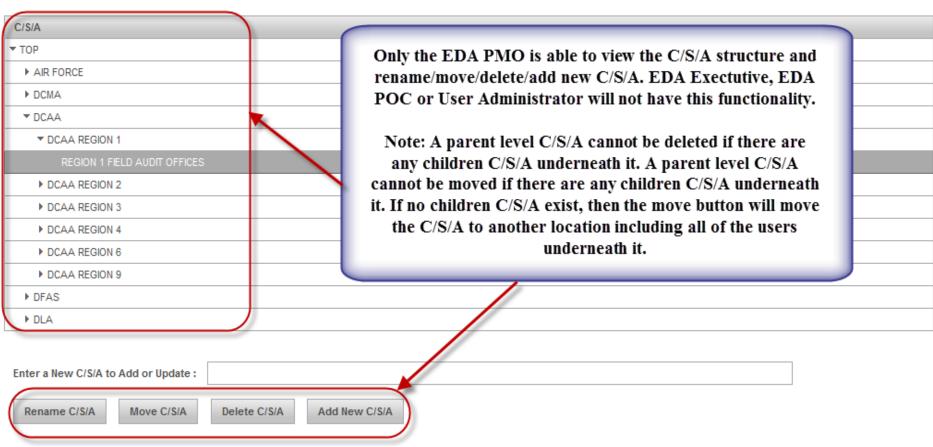

C/S/A Administration

- If a C/S/A is moved, all users underneath it will be moved as well, and will remain active. (Known Issue)
- EDA Executive/POC can move a user within his/her C/S/A domain.
 - If user is moved from one C/S/A to another, user will be deactivated.
 - Losing EDA POC, Gaining EDA POC and user will get notified.
- EDA Executive/EDA POC can archive a user, but if the user is a CDR POC, then it has to be assigned to someone else first.
 - If the user is not a CDR POC, but has a CDR role, a message will be given asking the user if they are sure they want to archive.
- An EDA POC user cannot be archived until they are removed from the EDA POC Assignments table.
- C/S/A cannot be deleted until all users and EDA POC and CDR POC are removed. (EDA POC/CDR POCs must be removed from the POC assignments table)
